

# Carlson Grade Barge

## Realtime 3D GPS for navigation

### Applications:

- Piling location and driving
- Navigation in low visibility
- Blind positioning

### Benefits and Features on Machine:

- Easy to use
- Navigate to coordinate file, or field market point
- Unlimited tagging of strata
- Project hole depth
- Warning / Watch zones by polygon or DTM
- Data Logging or Realtime data transmission

### Benefits and Features in Office: (subject to Productivity Tools and Fleet Manager)

- Create patterns from multiple sources
- Near realtime reporting
- Individual machine reports for fleets / users / activities
- Report actual drill pattern to design
- Wireless project distribution
- Realtime monitoring
- Near realtime volumes
